

CALIFORNIA SUSTAINABLE FREIGHT ACTION PLAN WORKSHOPS

SUBJECT: Interagency California Sustainable Freight Action Plan Workshops

Staff from the California Department of Transportation (Caltrans), the California Air Resources Board (ARB), the California Energy Commission (Energy Commission), and the Governor's Office of Business and Economic Development (GO-Biz) invite you to participate in workshops on the development of the California Sustainable Freight Action Plan (Action Plan).

During the workshops, interagency staff will provide an overview of the process for preparing the Action Plan and its envisioned content, as well as seek public input on what actions, investments, and partnerships are needed to develop a sustainable freight transport system in California.

Workshop Information

The workshops will be held at the locations and on the dates laid out in the table below. The workshops will be held simultaneously in-person, at satellite locations, and a separate stand-alone webinar. The agencies will follow the same format and show the same presentation at each location and in the webinar. Interagency staff will be present to give a presentation at the Main locations, which will be broadcast to the satellite locations. Staff will be available at the satellite locations to assist with questions.

CALIFORNIA SUSTAINABLE FREIGHT ACTION PLAN WORKSHOPS

BACKGROUND:

In July 2015, Governor Brown issued Executive Order B-32-15, directing the Secretaries of Transportation, Environmental Protection, and Natural Resources to lead other relevant State departments in the development of an integrated action plan, the California Sustainable Freight Action Plan (Action Plan).

The Action Plan will include specific recommendations, actions, investments, and milestones agencies can consider to develop and begin building a sustainable freight transportation system that will demonstrate California's private and public leadership in advancing national freight priorities, objectives, and goals, and accomplishing statewide goals, such as the targets identified in the Executive Order.

The State will establish clear targets to improve freight efficiency and transition to zero-emission technologies in the freight transport system, while continuing to support California's economy. The Action Plan will identify State policies, programs, and investments that can achieve those targets.

The State will also initiate work on identifying corridor level freight pilot projects within the State's primary trade corridors that achieve the targets set by the Executive Order by integrating advanced technologies, alternative fuels, freight and fuel infrastructure, and local economic development opportunities.

For more information regarding the workshop, contact Tyler Monson, Acting Freight Planning Branch Chief by phone at (916) 653-0158, or by email at Tyler.Monson@dot.ca.gov. Questions or comments may also be submitted to freight@arb.ca.gov or CSFAP@dot.ca.gov.

If you would like to receive notices of future meetings and the availability of materials, please sign up for the California Sustainable Freight Initiative list serve at:
